Message from Greendale Schools Superintendent

Dear Greendale Community,

Greendale Schools Mission is: "All students belong and are empowered to learn, grow, and engage as part of a global community." The work of Greendale Park and Recreation plays an important role in fulfilling this mission.

Park and Rec administration and staff continue to offer successful programs such as youth sports, senior activities, swim lessons, and cooking classes that engage and enrich the lives of Greendale residents. In addition, the team provides innovative programming that invites participants to explore new skills, celebrate and experience new cultures, and expand

knowledge and understanding of new subject areas. There is truly something for everyone to engage in connecting our local community within our global community.

I would like to take this opportunity to thank the community for their engagement in the development of our new strategic plan. We appreciate all of those community members who took time to participate in listening sessions, take the survey and join the work team to build the plan. Greendale Schools will continue working to live the vision to "Cultivate Excellence in Every Student".

As schools welcome students back into the buildings this fall, Park and Recreation offers an array of classes and experiences.

Child care, Open Markets, and all Park and Recreation experiences continue to follow health and safety protocols while working with the Greendale Health Department.

The Park and Recreation administration and staff are continuously finding new ways for you to engage! They truly consider all ages and seek opportunities to serve you and the community. I look forward to participating along with you in Park & Rec sponsored events and activities this fall. I invite you to find classes and experiences through Greendale Park and Recreation that build your sense of belonging in this community of learners!

Kim Amidzich, Ph.D.
Superintendent
